GES GET NEW TURBINES

Numbers in parentheses refer to list of appended sources.

Running 2 months ahead on production, the Leningrad Metal Plant imeni Stalin completed a turbine for the Dneprges on 5 November. (1) The plant is running tests on another turbine, the first of a series, and plans to put out the second of the series on 5 December. (2) Designated the AP 25, the turbine is more compact and economical than other turbines. (3) The year plan was fulfilled 25 November in the hydroturbine, metal structures, and metal-housings shops. (4)

A second Leningrad turbine producing plant, the Nevskiy Plant imeni Lenin, is working around the clock in the manufacture of a steam turbine starter and an air blower. It has cut down the assembly time for the air-blower rotor from 50 to 24 working hours. (5) The year plan was fulfilled by 1 December. (4)

The Zhitomir Motor Repair Plant imeni Stalin is building 48-horsepower turbines for the Ukrsel'elektro (Ukrainian Rural Electric) Trust; they are going to GESs now under construction in Odessa, Dnepropetrovsk, Kamenets-Podol'sk, Poltawa, and other oblasts. (6)

In response to an order from the Groznyy TETs, the Riga Turbine Machinery Plant recently completed and shipped to Groznyy a turbine diaphragm. (7)
